Profile of HERE AND NOW AI

- **Name of the organization:** HERE AND NOW AI
- Slogan: *Designed with passion for innovation*
- Contact: info@hereandnowai.com | +91 996 296 1000 | hereandnowai.com

1. Executive Summary

- Founded as a data-science research institute in 2011; pivoted to full-scale AI product development in 2018
- Headquartered in Chennai, Tamil Nadu, with a mission to build enterprise-grade AI solutions and autonomous agent platforms
- Core competencies: AI product engineering, turnkey AI-as-a-Service, and R&D toward the fully autonomous Robo-Professor

2. Leadership & Founders

Name	Role	Expertise & Highlights
Ruthran RAGHAVAN	CEO & Chief AI Scientist	Leads end-to-end AI product strategy, deep learning R&D, and autonomous agents
Deepti BALAGOPAL	COO	Oversees project delivery, strategic partnerships, and operational excellence
Balaji KAMALAKKANNA N	CTO	Architects AI system infrastructures, integrates AI agents with enterprise stacks

### 3. Evolution Timeline

- **2011–2017:** Built data-science & language-processing prototypes
  - **2018:** Transitioned into AI product development; launched first GPT-2-powered enterprise chatbot called Caramel AI
  - **2019–2022:** Delivered RPA solutions and multi-agent orchestration frameworks to clients
  - **2023–Present:** Building AI Applications, AI Agents, Scaling Model Context Protocol (MCP) and Agent-to-Agent (A2A) integrations; deploying ~10 AI agents daily
- 

### 4. Services & Offerings

- **AI Product Engineering**  
End-to-end design, prototyping, and deployment of AI solutions (NLP, Computer Vision, RAG, RL)
  - **AI as a Service (AlaaS)**  
Turnkey modules—AI-powered CRM, LMS, ERP, intelligent agents—securely integrated via MCP/A2A
  - **R&D & Innovation**  
Pioneering research in agent-based architectures, hybrid reinforcement-evolutionary systems, and autonomous education platforms
- 

### 5. Impact & Metrics

- **Thousands of hours** invested in product development with clients.
  - **Hundreds of prototypes** and full-scale AI applications built.
  - **200+ ongoing** AI R&D projects in active development.
  - **Daily** deployment of ~10 smart agents, achieving 10× scaling every quarter.
-

## 6. Strategic Partnerships

- **Project-Based Collaborations** with 15+ engineering and arts colleges—students co-build real AI products under industry mentorship
  - **Corporate Alliances** across finance, healthcare, and manufacturing—custom AI solutions to automate workflows  
*(Detailed list of partners and project scopes to be provided)*
- 

## 7. Vision & Strategy

- **Short-Term:** Expand AlaaS portfolio; deepen product co-development partnerships
  - **Mid-Term:** Onboard 100+ corporate clients for AI workflow automation; launch standardized AI product suites
  - **Long-Term:** Deliver the **fully autonomous Robo-Professor** platform, revolutionizing scalable, personalized AI education
-
